Sailing Rig — GREAT FUN!

Special Requests: _____

Slipstream carries a full line of paddles, PFDs & Accessories

Popular Accessories You Might Consider

___ \$49 Removable carry yoke — your new ultra-light boat will enable you to expand your paddling venues — the yoke makes carrying your canoe even easier — ask about the “hands-free” method of portaging. No pre-order required.

___ \$25 Boat wax — Slipstream has tested many wax products — we like this one the best. It adds scratch resistance, helps minimize existing scratches and provides added UV protection. No pre-order required.

___ \$13 Hoodwinks for easy tie-down (pair) — no need to crawl under your vehicle to look for a tie-down location — just lift the hood, hatchback or trunk a couple of inches and slide the hoodwink in — no damage to vehicle and ultra-strong for windy conditions. Install and remove in 15 seconds without tools. No pre-order required.

___ \$99 Storage pulley system for overhead suspension storage — a pulley system that enables elevated storage over your vehicle for up-and-out-of-the-way storage almost anywhere. Side wall and free standing systems also available. No pre-order required.
