Special requests

Ask about a sailing rig for your Woods Canoe 12

Add a new dimension of fun and excitement to your paddling adventures

Slipstream carries a full line of paddles, PFDs & Accessories

Popular Options You Might Consider

___ \$40 Laser engraved deck — everything from your boat name to a favorite quote or a Scripture reference — one of our favorites is from Thoreau, “Everyone must believe in something; I believe I’ll go canoeing”. **Must pre-order all custom Laser engraving.**

___ \$49 Removable carry yoke — your new ultra-light boat will enable you to expand your paddling venues — the yoke makes carrying your canoe even easier — ask about the “hands-free” method of portaging. No pre-order required.

___ \$25 Boat wax — Slipstream has tested many wax products — we like this one the best. It adds scratch resistance, helps minimize existing scratches and provides added UV protection. No pre-order required.

___ \$13 Hoodwinks for easy tie-down (pair) — no need to crawl under your vehicle to look for a tie-down location — just lift the hood, hatchback or trunk a couple of inches and slide the hoodwink in — no damage to vehicle and ultra-strong for windy conditions. Install and remove in 15 seconds without tools. No pre-order required.

___ \$99 Storage pulley system for overhead suspension storage — a pulley system that enables elevated storage over your vehicle for up-and-out-of-the-way storage almost anywhere. Side wall and free standing systems also available. No pre-order required.

Flotation Is Strongly Encouraged

We hope swamping or capsizing your boat will never happen. However, adding flotation is strongly encouraged for safety during the unexpected.

___ \$49 Bulkhead style flotation (adds 2 pounds). **Must be pre-ordered.**
or

___ \$115 Bungee bridle and two flotation bags (adds less than half a pound) — flotation bags with the bungee bridle offer outstanding safety and protection should your canoe become swamped or capsize. With practice, a deep water re-entry into the canoe is easier with flotation bags. Pre order is most convenient but this system may be installed while you wait — 15 minute project.
