VIP IBKCH

Innega/Basalt/Kevlar
& Carbon Hybrid
\$3,361 - 26 lbs

VIP C

Carbon
\$3,636 - 21 lbs

VIP - Vacuum Infusion Process

A vacuum bagging process that results in stronger laminates with fewer voids. Increased strength comes from an improved ratio between resin and fiber. Extra layers of material are also required (due to the vacuum compression) in order to achieve needed stiffness. Extra material means added strength.

Color (carbon available in natural black only)

Color Choice

Gunnels

\$0 Ash (+1 lb) or Cherry

\$75 Mahogany (+1 lb) Please call if you require Sitka or Cedar

Outer Gunnel Inner Gunnel

\$25 Special boat wax

\$65 Backrest for cane or webbing seat (removable)

\$40 Crossover option allows solo paddling

Special requests

Slipstream carries a full line of paddles, PFDs & Accessories

Popular Options You Might Consider

___ \$40 Laser engraved deck — everything from your boat name to a favorite quote or a Scripture reference — one of our favorites is from Thoreau, “Everyone must believe in something; I believe I’ll go canoeing”. **Must pre-order all custom Laser engraving.**

___ \$49 Removable carry yoke — your new ultra-light boat will enable you to expand your paddling venues — the yoke makes carrying your canoe even easier — ask about the “hands-free” method of portaging. No pre-order required.

___ \$25 Boat wax — Slipstream has tested many wax products — we like this one the best. It adds scratch resistance, helps minimize existing scratches and provides added UV protection. No pre-order required.

___ \$13 Hoodwinks for easy tie-down (pair) — no need to crawl under your vehicle to look for a tie-down location — just lift the hood, hatchback or trunk a couple of inches and slide the hoodwink in — no damage to vehicle and ultra-strong for windy conditions. Install and remove in 15 seconds without tools. No pre-order required.

___ \$99 Storage pulley system for overhead suspension storage — a pulley system that enables elevated storage over your vehicle for up-and-out-of-the-way storage almost anywhere. Side wall and free standing systems also available. No pre-order required.

Flotation Is Strongly Encouraged

We hope swamping or capsizing your boat will never happen. However, adding flotation is strongly encouraged for safety during the unexpected.

___ \$49 Bulkhead style flotation (adds 2 pounds). **Must be pre-ordered.**
or

___ \$115 Bungee bridle and two flotation bags (adds less than half a pound) — flotation bags with the bungee bridle offer outstanding safety and protection should your canoe become swamped or capsize. With practice, a deep water re-entry into the canoe is easier with flotation bags. Pre order is most convenient but this system may be installed while you wait — 15 minute project.
